

Dear susan.

You have asked me about the transactions between Rams pharmacy and Regiments that took place 5years ago or more . I guess it will be quite unrealistic and unreasonable to expect me to respond to these transactions that took place many years ago within 1 day.

Given the nature of your query and the reference of Mr Phetolo Ramosebudi and Regiments Capital I guess cannot at this stage candidly comment about this.

Please afford me an opportunity to make a thorough investigation about the allegation the same way you had adequate time to research about this. This will enable me to respond to this .

Please do make reference to my respond in your publication.

Thank you,

Mr.P. Ramosibudi
